UNITED STATES DEPARTMENT OF AGRICULTURE
Production and Marketing Administration

IS Key 4-28

SALES REPORT FOR DECEMBER 20, 1945

FISH AND FISH PRODUCTS

The United States Department of Agriculture has been given the responsibility of disposing of all government-owned food stocks and related agriculture products which are no longer needed by US Military Forces or for other war agencies. To avoid deterioration and to balance supplies with needs, some stocks of food and other agricultural products are being returned to civilian trade channels. In the re-sale of these stocks -- which are never large in comparison with the total supply -- it shall be the policy of the USDA to use established trade channels and to use every effort to avoid disrupting regular markets. These reports of sales of such stocks enable producers, processors, vendors, and others to follow current sales and to know what commodities are being sold, what quantity, and at what prices.

Buyer	<u>F.O.B. Point</u>	<u>Canned Salmon</u>	<u>Quantity</u>	<u>Price per case</u>
South Carolina State	<u>E. Liverpool, Ohio</u>	<u>Date of Sale - December 20, 1945</u>	<u>1,097 cases</u>	<u>\$ 7.60</u>
